## STEP ONE INSPECT CONTENTS

### GET STARTED

Inspect exterior of box  
Check for any shipping damage  
Alert us to check camera's functions  
And if a claim needs to be initiated  
Either way, let's look inside

## STEP TWO SET UP YOUR SHOT

### PLACE THE TRIPOD

Open the lid and remove the tripod  
Leave the remoteENG in the case for now  
Depress the **RED** buttons to open tripod legs  
Place the tripod where it will be used

## STEP THREE CLICK IN THE CAMERA

### CONNECT THE CAMERA TO THE TRIPOD

Remove the remoteENG one piece camera system  
Pull down on the red collar of the tripod  
Place the remoteENG camera onto the tripod  
Release the red collar and the camera is connected

## STEP FOUR LEVEL YOUR SHOT

### HANDY ATTACHED BUBBLE LEVEL

Hold the remoteENG by top handle  
While loosening the leveling knob  
This enables you to freely level the camera  
Using the bubble level  
Maneuver the camera until level  
Re-tighten the knob to lock your shot

## STEP FIVE CONNECT TO US
